Read the passage carefully and answer the questions that follow. Choose the correct answer and shade its number on the OAS provided.

Of the 300 children on board the 'Legend of the Seas' cruise ship, fourteen-year-old Andre Tang was perhaps the most special. He was the only one welcomed with a goody bag. His wish for a holiday with his family was fulfilled with the help of Make-A-Wish Foundation and Royal Cruises International.

Born with congenital heart disease, Andre is unusually small for his age. His lips and limbs are tinged with blue. However, his heart problem has not stopped him from enjoying his life to the fullest. Most children with congenital heart disease do not live for more than a few days after birth, so Andre is a bit of a miracle, surviving into his teens.

Andre spends most of his time at home playing computer games, drawing or looking after his pets as he cannot exert himself physically. Hence, Andre is grateful to the foundation for granting his wish for a holiday with his family.

It was Mr Kenneth Tan, a family friend, who referred Andre to the foundation. "I did it because I knew him. He fits the criteria of the foundation," said Mr Tan.

SECTION F: Comprehension (10 marks)

Read the passage carefully and answer the questions that follow. Write your answers in complete sentences.

Patrick never did his homework. He played soccer, basketball and computer games instead.

One day his cat was playing with a little doll and he grabbed it away. To his surprise, it was not a doll at all, but a man of the tiniest size – an elf.

The elf yelled, "Save me! Don't give me back to that cat. I'll grant you a wish, I promise you that."

Patrick could not believe how lucky he was! Here was the answer to all of his problems. Patrick thought hard and made the elf promise to do all his homework. The little man scowled and said, "Oh dear! I'll do it anyway." However, the elf did not always know what to do and he needed help.

"Help me!" he would say and Patrick would have to help in whatever way he could. If the elf did not know a word, Patrick had to help find the word in the dictionary. When it came to Mathematics, Patrick was out of luck.

"What are times tables?" the elf shrieked. "We elves never needed that. Addition, subtraction, division and fractions? Here, sit down beside me. You simply must guide me."

Soon, Patrick sat for his examinations. When Patrick got A's for English, Mathematics and Science, his classmates were amazed. His teachers smiled and were full of praise.

In the end, Patrick still thought he made that tiny man do all his homework. I am sure you know who really did it.
