Johan is a fisherman. He is known as one of the best fishermen in his village, in East Malaysia. He always seems to know where to find the biggest fish. Many locals also claim that he is very skilful in handling his small boat. However, this year has not been a good one for Johan.

His prized boat was damaged during a storm at the start of the year. 5
When he had finished repairing the boat and started fishing, he did not catch many fish. Johan was determined to continue fishing although the fishing season was almost over and the monsoon storm was approaching. The village elders advised him to stop fishing but he ignored them and started preparing for his fishing trip. 10

First, he mended all the holes in his nets. Then, he set off after ensuring he had enough supplies such as fresh water and food. When he reached his favourite fishing spot, he cast his nets into the sea. After an hour, he pulled them in. He was overcome with joy when he felt the heavy weight of the nets. By then, the sun was already setting. He quickly rushed back as he had heard 15
too many stories of fishermen getting lost in the dark. The villagers were happy to see him return with such a big catch.

Write your answers in complete sentences.
